Dear Gerhard,

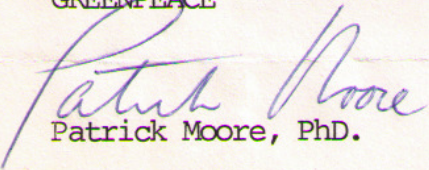

Thank you for your quick response. Your subscription to 'The Greenpeace Chronicles' and your membership card should arrive soon.

Our European offices in Paris and Amsterdam are interested in starting a Greenpeace organization in Germany. Because you do not have French, perhaps it would be better for you to contact David McTaggart at our Amsterdam office (Damrack 9811, Amsterdam).

It has been of some concern to us that many of the environmental groups in Germany are manipulated by political affairs in a way not beneficial to the environmental movement. From the tone of your letter it would appear that your group is not caught up in a right-wing versus left-wing conflict. If this is the case, your advice could be very helpful to the Greenpeace organizers who wish to establish a presence in Germany.

Thank you for your support. Please continue to correspond with us.

Sincerely,  
GREENPEACE
